PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT, APRIL, 1932

Docket No. 347.—In re American Commission Co. and other market agencies at the St. Paul Union Stockyards, South St. Paul, Minn. On March 26, 1931, the Secretary of Agriculture issued an order of inquiry and notice of hearing in this case, which said hearing has been continued from time to time. Uniform tariffs containing rates substantially lower than those in effect have been submitted by all the market agencies on the South St. Paul market and have been accepted for filing effective April 1, 1932. Therefore, on April 18, 1932, this proceeding was dismissed without prejudice.

Docket No. 377.—In re J. G. Glass, dealer, Fort Wayne, Ind. On February 9, 1932, the Acting Secretary of Agriculture issued an inquiry alleging that respondent had violated the packers and stockyards act in that he had failed, neglected, and refused to execute and maintain a reasonable bond to suitable trustees to secure the performance of his obligations as a dealer. On April 4, 1932, respondent admitted the truth of the matters alleged and waived a hearing thereon. On April 21, 1932, respondent was suspended from registration as a dealer for a period of six months with leave, however, during said period to apply for revocation of this suspension upon satisfactory proof that he has filed a reasonable bond. Respondent was also ordered to cease and desist from doing business as a dealer without executing and maintaining a reasonable bond to secure his obligations incurred as a dealer.

Docket No. 385.—In re Charles E. Harding Co., market agency, Chicago, Ill. On March 18, 1932, the Acting Secretary of Agriculture issued an inquiry alleging that respondent had violated Title III of the packers and stockyards act, in that it had made charges in its capacity as a market agency at less than the rates duly published for rendering such service. On March 28, 1932, the respondent acknowledged receipt of the inquiry, admitted the truth of the facts alleged and waived a hearing thereon. On April 8, 1932, the respondent was ordered to cease and desist from violating the act by charging, demanding, or collecting a greater or less or different compensation for stockyard services than the rates and charges specified in its schedule on file and in effect at the time.

FOOT-AND-MOUTH DISEASE INVADES CALIFORNIA

An outbreak of foot-and-mouth disease, in Buena Park, Orange County, Calif., was confirmed April 28 by county, State, and Federal veterinary officials. Lameness in a herd of 4,000 garbage-fed hogs was called to the attention of Dr. L. M. Hurt, who suspected foot-and-mouth disease, and notified State and Federal officials. Blisters on the snouts of some of these hogs, together with more definite foot lesions, soon appeared and, after a series of diagnostic tests, the officials, including Dr. Jacob Traum of the State University, confirmed the outbreak as foot-and-mouth disease. The manner of introduction is still undetermined.

The bureau has assigned a corps of picked veterinarians to cope with the emergency. Dr. Rudolph Snyder arrived at the scene of action by plane and will direct the work of the Federal men already there and others who may be needed. Dr. J. J. King, State veterinarian of California, likewise is on the "firing line" with his State forces. A rigid quarantine of the area is being enforced.

The foregoing outline of the situation is published for the information of bureau employees and gives the essential developments up to April 30. The bureau urges that all employees observe maximum diligence so that this outbreak may be stamped out with greatest dispatch.
